*"There is absolutely nothing I cannot do with my sheer force of will."*

## Personal Profile

I am a Computer Engineering student and I absolutely love technology. Been trying to understand how things work inside-out since I was a child. Currently working as a Network Administrator. Been dedicating myself for at the very least 1 hour per day for about 100 days (progress can be tracked on my GitHub Streak). Love to solve problems. The quote above pretty much describes how I am.
